Contact XDModo **168**

Introducing a brand new retail concept of gift articles.

It's a challenge for every consumer:
The search for the 'perfect gift'.

Original yet practical. Desirable yet affordable.
This is where XDModo comes in.

Creating a broad range of gift items all based on the same idea.

A brand new concept and a true profit generator:
XDModo Wannagives.

What's so special?

Adding creativity and clever thinking, XDModo takes everyday products to a higher level.
All of the products are created by an international team of designers in our studio in Shanghai.
Working from the same design principles they created a series of products which all have a recognizable look & feel to it.

Great flexibility.

Want to present the entire range or just a selection? Sell them as XDModo Wannagives or under your own label? Want to adjust the packaging or the presentation to your needs?
It's no problem at all.

Where's the benefit?

There's more to XDModo than great design at affordable prices.

It's in the packaging.

Each product is packed in a stylish way. Communicating what the product does and how it will benefit the user. Packaging is one of the most powerful sales tools available.

It's in the profits.

You would expect the XDModo products to be more expensive than the actual prices for which they sell. In fact they all come at very attractive prices making them very seductive easily generating extra sales.

It's in the future.

Today we're introducing three exiting product lines. But we're already working on new ones while at the same time adding great new gifts to the existing lines.

The power of packaging!

At XDModo we believe that the presentation of a gift is just as important as the gift itself. The luxurious gift packaging is the first element the recipient will see so it is essential that this creates a lasting impression.

Remember... you never get a second chance to make a first impression, so the way the gift is presented should indeed reflect the quality of the gift itself!

In the store, the packaging needs to clearly and quickly communicate what the product does and how it will benefit the user.
Packaging is one of the most powerful sales tools available. That's why we have spent so much time and effort into it.

Make it surprising.
Different.
Memorable.
Make it a Wannagive.

Who's behind all this?

The XDModo concept of Wannagives is created by Xindao. A well known name in the field of corporate gift articles, established in 1986.

Xindao is a Dutch company with offices around the globe, a design studio in Shanghai and its own production in China.

Xindao's young design studio is the winner of three 2008 Reddot design awards, one of the most renown awards competitions in the design world. Next to this it won a Good Design award from the Chicago Athenaeum in 2009.

Eclipse Solar Torch

XDModo design team

Design is one of the most effective ways to differentiate oneself. We don't think this is about adding features. It is about elegant solutions. Making it smarter and eliminate unnecessary complexity, standing out because of their design and functionality.

Taking everyday products to a higher level, making them unique and affordable at the same time. That is the challenge of our XDDesign team.

Our design team has won multiple international awards. Read more about this in the award section.

Design Awards

Recently Xindao has received the red dot design award for three items from their collection. The winning items are evaluated according to the highest standards. The adjudication process follows a canon of strict criteria such as; degree of innovation and design, functionality, ergonomics, formal quality and durability.

The red dot design award

The red dot design award is an initiative of Design Zentrum Nordrhein Westfalen. A jury of 21 prominent professionals voted for the three Xindao items.

The good design award

The Chicago Athenaeum's Good Design Award was established in 1950 by Edgar J. Kaufman, Jr., and is one of the world's oldest and most celebrated awards programs. The program recognizes designers and manufacturers for advancing new and innovative product concepts that push the envelope beyond what is considered standard product and consumer design.

Lifestyle

Comfortable eating at home with family and friends turns even the simplest meal into a feast.

Culinary enjoyment is gaining more and more attention which goes way beyond pots and pans. Attractive and useful accessories complete the picture.
A beautiful laid table increases the festivity. Our design team shows that style can be affordable.

On the next few pages you will find items related to the kitchen, wine, fun and health.

Outdoor

The open air has a relaxing effect and is healthier than we realize. With this fantastic product line we are making this experience even much more fun.
A broad series of thermos flasks and mugs. No matter how warm or cold, always the right temperature. This chapter also shows useful adventure sets, compasses and a wide range of binoculars. In short, a magnificent collection when relaxing and enjoying is the theme.
Additionally, there are also some items in case something goes wrong!

26 x ø6,7 cm

P433.150 silver | P433.152 grey
P433.153 white | P433.155 blue
P433.157 green

Our environment

- It takes 160ml of oil and 5 liter of cooling water to produce 1 PET bottle of 1 liter
- Europe uses 30 billion PET water bottles each year
- This is the same amount of oil needed to drive around in one million cars during one year.

Your health

- Pet water bottles are often used as drinking bottle but never cleaned properly.
- Bacteria love the rim of the bottle. When you refill the bottle without washing it, you flush the water into your mouth.
- Stainless steel is dishwasher safe!

DESIGN YOUR OWN BOTTLE

Design your own bottle from stock, starting at 100 pcs. in one or more colors, please ask your sales rep for more details

Design your own bottle directly from factory, starting at 750 pcs. 'all over' in 'full color' and with own packaging possibilities. Please ask your sales rep for more details.
